

Part No. ALL40107
ALL40108

Extended Funnels

Funnels with extensions work great for adding fluids in hard to reach areas. Standard funnel is useful for power steering, and automatic transmissions. Funnel with flexible extension is ideal for differentials and manual transmissions. Built-in hang tab allows funnel to be secured to body or frame for hands-free filling.

Part No.	Description
ALL40107	18" Flex Spout
ALL40108	15" Straight Spout
