

Part No. ALL42074
ALL42078

Brake Bias Adjuster With Reference Pointer

Know exactly where brake adjustments are set, no more guessing the correct setting. When the adjusting knob is turned, the pointer moves along the reference scale. Adjuster body can be pivoted for easy viewing and multiple applications. Record where the pointer is located and use as baseline. Housing, internals, brackets and knob with detent are all made of aluminum. Each includes a five foot cable that can be cut to any length for a custom fit and has 3/8"-24 threads for most standard pedal assemblies.

Part No.	Description
ALL42074.....	Adjuster With Knob
ALL42078.....	Adjuster With Crank Handle

Replacement Parts:

ALL99116.....	Cable Assembly
ALL99117.....	Ball, Spring & Set Screw
