

Part No. ALL60285-60289

## Quick Change Pinion Mount Panhard Bar Brackets

Pinion mounted brackets have a cam style adjuster for quick and easy setup of the Panhard or J-bar. Single cam adjuster features a cog style adjuster nut and threaded back nut that slides with adjuster for easy single wrench adjustment. Double cam adjuster has cog style front and rear adjusters that are keyed together for smooth adjustments. Aluminum mounts replace the front pinion plate on most quick change rear ends and the steel mount is used with the original pinion plate. Radius mounting slots eliminate the need to adjust J-bar or Panhard bar length.

### Part No. Description

ALL60285.....Aluminum Bracket, Single Sided, Single Cam

ALL60286.....Aluminum Bracket, Double Sided, Single Cam

ALL60287.....Single Sided Steel, Double Cam\*

ALL60288.....Aluminum Bracket, Single Sided, Double Cam

ALL60289.....Aluminum Bracket, Double Sided, Double Cam

\* Steel bracket designed for use with original or factory pinion plate.
