

Part No. **ALL22108**

## Front Support Kit

Front support kit adds strength to the front section of racecar by reducing excessive flex. Pre-cut and notched pieces of 1-3/4", .095 wall, mild steel tubing fasten to the existing roll cage and extend to the front of the chassis to strengthen vulnerable steering and radiator areas. Lower radiator mounting brackets are included. Kit requires the addition of two front arch supports (ALL22119) which are not included to complete installation. Some modifications may be required for installation.

### KIT CONTENTS

- (1) 48" Straight Tube
- (1) 42" Straight Tube
- (2) 36" Straight Tubes
- (2) 24" Straight Tubes
- (2) 22" Straight Tubes
- (2) 11" Straight Tubes
- (2) 8" Long x 2" Wide Radiator Support Brackets
