

Part No. **ALL30044**

Asphalt Late Model Radiator

Aluminum dual pass radiator has 16"x28" overall dimensions and does not have a filler neck. The 1-3/4" bottom outlet is welded 90 degrees to the tank, not angled, as these radiators typically mount with the top leaned forward. Universal top inlet design accepts fittings for 1-1/2" standard hose, 1-3/4" hose, -16 or -20an fittings (sold separately). Includes a 1/4" petcock located near the top on the driver's side to release possible air in the system when filling.
